The **Snorkel Sentry** is a lightweight and portable fume extractor equipped with an adjustable height stand and a "no tool" mounting bracket so the unit can easily be secured to tables and other work surfaces for enhanced stability. The unit's self-supportive flex arm allows optimum source capture placement by the operator.

Typical applications for this unit include soldering, chemical fumes, light grinding, solvent and epoxy fumes, pharmaceutical powders, dust, and many other procedures that emit fumes and particulate.

This unit is customized with filtration media that specifically meets your individual application and typically utilizes the following: HEPA filters [up to 99.97% efficient on particles 0.3 microns and larger], ASHRAE filters [up to 95% efficient on particles 0.5 microns and larger], Activated Carbon, and specialty-blended filtration media [i.e. Acid Gas, Mercury, Aldehyde, Ammonia].

The **Snorkel Sentry** provides a highly energy-efficient, quiet and economical solution to many fume extraction needs.
