- Optional Spill Trays
- Custom Material Options
- Other Standard Sizes: 18", 24", 40", 50", 60", 70"
- Optional Anti-Static Vinyl Strip Curtains

High-Quality Materials & Design. Sentry Air's 30" Wide Ducted Exhaust Hood may be an excellent choice for applications that require a compact, exterior-ducting fume hood. This benchtop unit features unique hinged folding side panels, a high-density polyethylene base, a clear polycarbonate top, and a polycarbonate hinged sloping front lid. It is extremely compact and light weight. Typically, exhaust hoods may be used in chemical laboratories— especially those evaporating large amounts of volatiles organics, chemicals with low odor thresholds, heavy powder and capsule filling, and a variety of other processes that require exterior fume exhaust.

The 30" Wide Ducted Exhaust Hood can be an effective and economical tool for air quality enhancement in many commercial, chemical, medical, laboratory, and industrial applications.

Customization Options. This Ducted Fume Hood allows for several custom features:

- Material Options (e.g. metal, esd-safe, PVC)
- Size Options (width, height, depth, access area dimensions)
- Custom Cutouts (e.g. sink, machinery, microscopes)
- Dual-Entry Configuration
- Custom Illumination Options (e.g. Black Light)
- Accessories for Hanging Equipment

This unit includes a 6" Exhaust Collar and does not include ducting or fan. Ask Sentry Air Systems Applications Specialists for assistance in selecting a suitable fan. Sentry Air Systems also manufactures fume hoods that include a fan and filtration media (Ductless Fume Hood).
