Model 400/450 Mounted Sentry with Outlet Plenum

Model # SS-400/450-MSP

The Model 400/450 Mounted Sentry with Outlet Plenum primarily exhausts filtered air to a remote location but can also be utilized to create a positive-pressure environment. The 12" diameter exhaust collar allows filtered air to be exhausted outside, or into the facility's central exhaust system or ductwork. When combined with HEPA or ULPA filtration, this unit can be utilized to create positive-pressure to provide airflow with reduced particulate to the enclosure or create a compact clean room. Also, this system has the option of remaining ductless to recirculate filtered air back into the immediate area.

Typical fume control applications for this unit include laser marking, printing fumes, soldering fumes, fume/vapor source capture, pharmaceutical powder control, chemical fume exhaust, enclosed machinery mounting, and many other applications that produce particulate, smoke, dust, and fumes.

Model 400/450 Mounted Sentry with Outlet Plenum

Positive-pressure applications include hard drive restoration, computer and electronics repairs, sterile assembly, medical device manufacturing, cleaning optics and lasers, stem cell therapy, tissue culturing, and more applications that require a clean room environment.

High-quality filter media for this unit depends on the application, but typically includes **HEPA** filters [up to 99.97% efficiency on particles 0.3 microns and larger], **ULPA** filters [up to 99.9995% efficiency on particles 0.12 microns and larger], **ASHRAE** filters [up to 95% efficiency on particles 0.5 microns and larger], **activated carbon**, and **specialty-blended filtration media** [i.e. acid gas, mercury, aldehyde, and ammonia]. The **Mounted Sentry with Outlet Plenum** allows multiple filter media to be housed inside the filter chamber for applications that emit both particulates and fumes.

The Mounted Sentry is available in two smaller models [SS-200-MSP & SS-300-MSP] and one model without the outlet plenum [SS-400/450-MS].

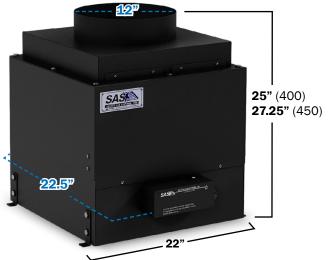

Product Features

- Includes: variable speed controller, 12" exhaust collar plenum, and mounting brackets
- Optional: Magnehelic Gauge and hour counter
- · Quiet, reliable, low maintenance operation
- Sturdy construction
- Simple, quick "no tool" filter change
- · Long filter life
- Attractive appearance

	SINCE 1983
Base Unit Dimensions (L x W x H)	400: 22.5" x 22" x 25" 450: 22.5" x 22" x 27.25" (includes control box in length, brackets in width, & inlet/outlet collar in height)
Outlet Plenum Dimensions	12" diameter
Inlet Config.	6" or 10" diameter
Cabinet Material	16 ga. carbon steel
Weight	Approx. 50 - 110 lbs.
Air Volume (approximately)	400: 50 - 700 CFM 450: 0 - 877 CFM (from low to high)
Electrical	400: 115/1/60, 2.5 amps 220/1/50 or 60, 1.5 amps 450: 115/1/60, 5.2 amps 8' grounded power cord with NEMA 5-15P plug
Sound Level (3' from inlet)	400: Approx. 60 dba (high) 450: Approx. 71 dba (high)
Main Filter Options	Depending on the Application: 400 - Chemical: Activated Carbon Specialty-Blended Filter Media [i.e. acid gas, mercury, aldehyde, and ammonia] 400 & 450 - Particulate: HEPA [up to 99.97% efficiency on particles 0.3 microns and larger] ASHRAE [up to 95% efficiency on particles 0.5 microns and larger] ULPA [up to 99.9995% efficiency on particles 0.12 microns and larger]
